

Lisa Lyons, BSN, RN

Lisa Lyons, BSN, RN, Product Marketing Manager for 3M corporation's Health Information system, is a practicing nurse with over 15 years of healthcare experience in hospital operations as well as hospital quality improvement and efficiency. She has extensive experience working on both the hospital and vendor side of the healthcare information system business designing and implementing enterprise level solutions. She has been involved in state level research projects and quality initiatives such as the State of Florida Potential Preventable Readmissions project as well as payment reforms. Her interests include embedding care improvement initiatives and technology into daily operations to support efficiencies and improved patient outcomes.
